CCR					191	132
Lead & Copper			12	10	160**	76

### Variances and Exemptions

West Virginia does not permit variances, only exemptions. No exemptions were granted to any West Virginia PWSs during the 2003 calendar year.

\* Sum of acute (4) and Non-acute (16) MCL.

\*\*Sum of initial lead & copper tap monitoring/reporting (12), follow-up or routine lead & copper tap monitoring/reporting (136), OCCT and/or SOWT (1), and Public (11).

\*\*\*Sum of treatment techniques for filtered systems (40) and failure to filter (25).

Shaded areas of this chart are not applicable; there are no applicable violations for these 2003 TOTALS

	State Report Data
Total Number of Systems in Violation	485
Total Number of Violations	1733

+ Total number of systems with violations for 2003  
Some systems can have one or more violations

### Discussion

West Virginia's State Report is available at website [www.wvdhhr.org/oehs/eed/reports.html](http://www.wvdhhr.org/oehs/eed/reports.html) or by contacting the EPA's Safe Drinking Water Hotline at [1-800-426-4791](tel:1-800-426-4791).

The State of West Virginia has developed an enforcement program that can issue administrative orders and levy fines, if needed, to assure compliance. Most enforcement actions are initiated because a major monitoring violation occurs when no water samples were collected or no analytical results were reported during a particular compliance period. Often enforcement is performed in conjunction with local courts and the US EPA.
